- Progress on Goals from the Last Week:
 - LSC Renovations: We will be starting a soft move out of the LSC starting with cleaning out storage and the Senate chambers. We will be working on this when we can throughout the year. If there is anything that anyone would like to make sure is kept out of those areas let me know!
 - Fan Experience Task Force: the committee has been meeting to nail down some of the great things that we are doing right. Like bringing college flags onto the field, having a victory flag, and improving the game day experience. We will keep working on these things and improving them!
 - Governmental Affairs: The debates that the department brought to campus went really well! Being able to listen to what the candidates had to say about tough issues was really great and informational – it was also great to bring people right to campus.
 - Met with Becky and Rob about the new RamRide dispatch system. We will be looking at a time when we can bring in the new system for a possible demo later in the fall. We are also in conversations around the RamRide budget and how we can make it work for the spring!
 - Master Planning Meeting: in this meeting we talked primarily about the Mason Street Corridor would affect the campus. Also, looking at long term parking for the city and how we can use the corridor for that.
