 - Student Fee Review Board
 - i. SLiCE, Off Campus Life, School Music and Dance, and Ram Ride all came in to present to SFRB. We approved Off Campus Life for their fee increase. We are waiting on some other document to come in to approve the others. This week we had athletics and campus recreation center come in to talk to the board. Athletics is a big budget for the university. All fees are required to have a summer fee but this is a very low value for the summer. There is not as much activity in this area over the summer but is minimal. This fee area has an enormous self-generated revenue from other sources besides student fees. Student fees do not go to funding the stadium, it is from the self-generating funding. Athletics is not asking for a fee increase. The student recreation center fee area was not asking for a fee increase.

- ii. Bill 4618 was read by Parliamentarian Vaishampayan
- iii. Presentation of Bill
 1. This bill is to keep the percentages of salaries for the ratified members in ASCSU up to the constitutional validity with the moving of the Transfort contract to a separate fee area. This bill also takes into consideration the minimum wage law that was passed in the last election season for Colorado. This percentage could be higher but we wanted to keep it in a range where it would continue its services without hindering with higher salaries. This percentage is a maximum limit but does not mean they have to use all of this money.
- iv. Questions
 1. Associate Senator Syron: Do you feel like you are strong arming the future administrations?
 - a. We are doing this so that we are not constantly changing the constitution and this is a maximum number and administration could look to keep it lower.

Sent to Internal Affairs Committee
